

# How to Create a New Facebook Account

Search for Facebook in your browser and go to “Create a New Account.”

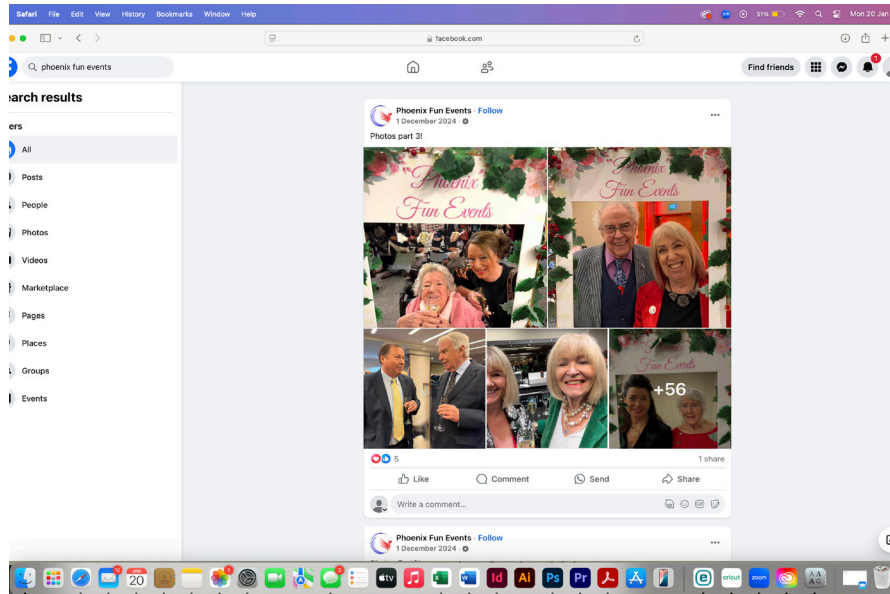

Fill in the details required (password must be at least 6 digits long and contain numbers, letters and special characters). You can use email or mobile number as your login. When you have clicked “confirm” you will receive a text or email with a code to enter.

You now have a Facebook account!

You can now “find friends” and “add friends”.

Search for “Phoenix Fun Events in the search bar and click “follow”.

You will now be able to scroll down and view all the previous Phoenix events with photos. You will also be notified when any new Phoenix posts appear.

There is also a great video on You Tuber explaining all this:
